

VISOR

pro™

The expandable,
rechargeable handheld
with lots of memory

The Handspring Visor Pro is an infinitely expandable handheld with **16 MB of memory**. This powerful, rechargeable handheld has plenty of room for just about all your business and personal needs – from databases and documents to photos and games. Plus, with the **unique Springboard™ expansion slot**, you can add even more functionality, such as a digital camera, wireless modem or PowerPoint® presenter. Best of all, with no drivers to load, it's just plug-and-play – snap in a module and away you go.

Running the popular Palm OS®, Visor Pro does everything a Palm™ organiser does and more. In addition to an address book, to do list and memo pad, there are new features like Fast Lookup, an enhanced date book, advanced calculator and world clock, with thousands of other Palm-compatible applications available to download. What's more, you can transfer all your existing Palm organiser data with just one touch, and even beam information or programs to other Palm users.

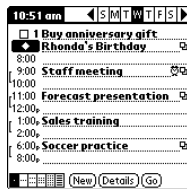

To top it off, the **USB connection** makes synchronising with your desktop computer really fast – and really easy. You can back up, update or exchange information between your Visor Pro handheld and desktop computer using HotSync® technology via the USB charging cradle supplied.

Visor Pro is not just **fast** and **powerful**, it also offers the convenience of a **rechargeable** battery that charges in the HotSync cradle. It comes in one smart colour – silver.

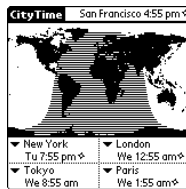

Visor Pro™ Features

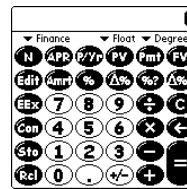

Organises like a Pro

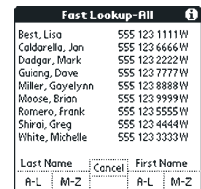

Enhanced date book with expanded views, including weekly, yearly and a list view. Integrated to do items that appear in the daily calendar view.

World clock showing day of the week and time in five cities around the globe.

Advanced calculator with advanced maths, trigonometry, business, statistical, and conversion functions; built-in maths library for higher precision.

Fast Lookup to help you find an Address Book entry in no time, using buttons instead of the stylus.

Store more than ever before

- Download all the business and entertainment software you need – from travel guides and flight finders to currency converters and expense trackers.
- Watch your favourite video clips or show off your family photos.
- Take critical files like spreadsheets, price lists, word processed documents and PowerPoint® presentations wherever you go.
- View all your important web pages – from stock quotes or driving directions to news and entertainment listings.

Fully compatible

- Visor Pro runs the popular Palm OS® so you can run all Palm OS based software programs.
- Beam information or programs between your Visor handheld and other Palm organisers.
- If you have existing data in a Palm organiser, you can transfer it to your Visor Pro with just one touch.

Well connected

- USB connection makes synchronising with your desktop computer a whole lot faster and easier.
- Instantly back up, update and exchange information between your Visor handheld and desktop computer with the USB charging cradle and HotSync® technology.
- Internal lithium ion battery quickly recharges while in the cradle.
- Windows and Macintosh desktop software included.

Infinitely expandable

- With Handspring's unique Springboard™ expansion slot you can use your Visor Pro to take digital pictures, access the internet or view a PowerPoint® presentation in a snap.
- It's the first true plug-and-play expansion solution. No need to load any drivers – just plug in a module and away you go!
- No other handheld lets you switch functions so easily. Use your wireless ethernet modem for business and your digital camera for pleasure.
- Modules can be purchased separately. Check www.handspring.co.uk for availability.
